

NIOXIN

HEALTHY-LOOKING HAIR BEGINS WITH THE SCALP

Nioxin is a simple to use system for men & women with noticeably thinning, natural or chemically treated hair that want their hair to look denser, thicker & fuller. It works by creating the optimal scalp environment to grow healthy hair.

% Of people seeing results in just 4 weeks

Provides thicker looking hair – 72%

Provides denser looking hair – 71%

For best results we recommend that our clients start with an in-salon scalp dermabrasion service, this is like a facial for the scalp, removing build up around the hair follicles, thus creating the best possible scalp environment. Your stylist will then recommend a personalized 3-part Nioxin system, which will replace your regular home hair care routine.
